FACILITIES

The main hall of the conference venue (270m² in total) is made up of three sub-halls (11m x 7.6 m each), each of which can operate independently or together via a touch-screen control system.

High quality, strategically placed equipment has been installed in the 3 sub-halls and all systems have been integrated and configured to maximize performance and enhance aesthetic qualities.

- Wall-mounted presentation speakers
- Motorised 2.5m x 1.m screens working in sequence with the audio system
- WiFi Connection
- High-resolution projectors

The system has been designed to maximise ease of use and functionality, with simple plug-in and play options for all presentation needs.

Custom designed floor panels have been installed into all 3 sub-halls with connections for computers and other electronic equipment. A conference one delegate microphone system is available.
